

DDO, s.r.o. Dubnica nad Váhom has decided to build a Quality Management System (QMS) based on the needs of further progress, with the use of the applicable requirements of ISO 9001: 2015.

Management for performance increasing and further development of the organization has adopted the binding principles of behavior and attitudes of all employees that are centred by this quality policy.

Quality policy

Maintaining quality is crucial

- QMS
- for the customer:*quality products and continuous improvement of the*
 - for the supplier:*regular/operational selection and evaluation*

Long-term satisfaction is a guarantee of success

- for the company:*satisfied customer and good economic results*
- for the employee:*professional growth, education, occupational health and safety and long-term assertion*

Health and environment protection

- by complying the legal requirements and the requirements of the region

Management does not get rid of responsibility for compliance with other ISO 9001: 2015 requirements.

Management representative

Dubnica nad Váhom

Ing. Michal Mojto
Executive manager

Policy

- provides a framework for further strategic planning
- is fulfilled by a regular review of its suitability and by the fulfillment of its objectives
- applies to all employees, and employees are familiar with it
- is a public document

Aims

- we achieve our policy fulfillment through long-term and short-term goals, especially by improving and expanding technologies, by taking the suggestions of responsible investigators, from our own staff

Programs

- to achieve each goal, the responsible investigator suggests the program in the form of concrete steps for the team members
